The Cause

The YouthQuest Foundation provides support for academic and vocational development, infrastructure and life enriching activities for America's at-risk youth. We believe the best way to prepare teenagers for productive lives is through a quality education and the development of fundamental life skills. A core mission of YouthQuest is to award scholarships to at-risk teens who aspire to pursue a college degree or develop proficiency in a skilled trade. This tournament, our signature fundraising event, makes it possible for us to sponsor life-changing programs such as the *3D ThinkLink Initiative*, which uses 3D design and printing to teach critical thinking and STEM (Science, Technology, Engineering and Math) skills. Besides introducing students to a cutting-edge technology that is being adopted by a wide variety of potential employers, our classes help young people learn to think differently and make better decisions as they enter adulthood.
